LEAGUE tables for primary schools in Bournemouth, Poole and Dorset were released by the Department for Education this morning.
The figures are based on the number of pupils reaching benchmark levels between key stages 1 and 2, as well as the progress made by eligible students.
Among the schools celebrating today will be Bournemouth's Elm Academy, as for the first time all of its pupils reached the national benchmark standard level 4 in every subject only five years since it was put into

By Will Frampton
special measures.
Headteacher Helen Janda said: "The results are testament to the hard work of all our staff and students and their dedication to keep on improving.'
Borough of Poole also welcomed the results, recording an overall increase of nine per cent in pupils achieving level 4 in reading, writing and maths.
"This is the biggest increase made by any local authority this year," said Vicky Wales, head of children, young people and learning at the council.
"We acknowledge that there are more improvements to be made and we are working in partnership with our schools to support them to continue to improve overall standards and outcomes for their pupils."

KEY: The table shows each primary school, listed alphabetically within its local authority area. After the name, the table lists:
the table lists:
a. The number of pupils on roll eligible for assessment in National Curriculum Key Stage 2 tests this year
a. The number of pupils on roil eligible for assessment in National Curriculum Key Stage 2 tests this year
b. The percentage of pupils achieving Level 4 - the expected level for the age group - or above in the reading test b. The percentage of pupils achieving Level 4 - the expected level for the age group - or above in the reading test
c. Of pupils included in the progress measure, the percentage of pupils who have made two or more levels of c. Of pupils included in the progress measure, the perce

## d. The percentage of pupils achieving Level 4 - the expecte

## assessed by teachers)

 e. Of pupils included in the progress measure, the perprogress in writing between the ages of seven and 11 f. The percentage of pupils achieving Level 4 - the expected level for the age group - or above in the maths test g. Of the pupils included in the progress measure, the percentage of pupils who have made two or more levels of progress in maths between the ages of seven and 11
h. The percentage of pupils achieving Level 4 or above in both the reading and maths tests and in writing i. The school's average points score. Pupils sitting the National Curriculum tests are
given a set number of points for the level they achieve. Level 2 or below is worth 15
points, Level 3 is worth 21 points, Level 4 is worth 27 points, Level 5 is worth 33 points etc. A pupil's average points score is calculated on their reading, writing and maths results and these are then used to calculate the school's average points score.
j. The ranking within its own Local Authority which each school achieves, according to
the percentage of pupils achieving Level 4 or above in reading, writing and maths.
NOTE: Primary schools which have become academies since taking this year's National Curriculum tests may be listed twice. New primary free schools that do not yet have test results will also show n/a.
